The following programme provides information on training events and seminars currently planned within the framework of the activities envisaged in the JASPERS Networking Platform 2013 annual plan.

It will be kept regularly updated to reflect activities and events that might be added at a later stage during 2013.

Updates of this programme and detailed information of upcoming events will be published on the JASPERS Networking Platform website (www.jaspersnetwork.org).

**June**

11th June – **Training on preparation and CBA of RDI projects** (venue: EIB office - Brussels)

This training event will go into the details of the JASPERS working paper for the preparation of projects related to Research, Development and Innovation (RDI) infrastructure ([link](#)), which was shortly presented at the JASPERS Networking Platform launch event of March 21st 2013.

The target group of the training are relevant authorities in Member States (managing authorities, line ministries and beneficiaries) that have directly dealt with the development of RDI projects in the current financing perspective, or are involved in the identification and development of projects in the new financing perspective 2014-2020.

**September**

12th September – **Training on design of EU-funded Energy Efficiency Programmes for Buildings** (venue: European Commission - Brussels)

This interactive training aims at enabling participants to develop funding schemes for energy efficiency in housing and public buildings, so as to use this knowledge in the preparation of the respective priorities and schemes for the new EU funding period 2014-2020. The training session was developed on the basis of concrete case studies of similar schemes developed with JASPERS support for ERDF funding in 2012.

*Invitations will be extended to interested parties in DG REGIO and DG ENERGY.*

17th-18th September – **Best Practices in Flood Risk Management** (venue: European Commission Brussels)

The objective of this interactive workshop is to raise awareness on the principles and good practices for the sound planning, development and preparation of flood protection projects, taking into account Flood directive requirements and integrated solutions. The workshop addresses concrete examples from the 2007-2013 funding period, including those that received JASPERS support, and envisages an interactive discussion on selected case studies.

The target audience of the seminar are relevant authorities in Member States dealing with the planning, preparation and implementation of Flood Risk Management projects.

*Invitations will be also extended to interested parties in DG REGIO and DG ENV.*

For any information on events included in this programme and on the activities of the JASPERS Networking Platform please contact Massimo Marra (marra@eib.org) or write a mail to jaspersnetwork@eib.org
October

16th October – Workshop on environmental ex-ante conditionalities and SEA requirements for 2014-2020 (venue: European Commission - Brussels)

This seminar will address the environmental requirements on ex-ante evaluation and relevant ex-ante conditionalities, both general and thematic. During the seminar, the JASPERS Toolkit for the general EIA/SEA ex-ante conditionalities, developed in agreement with DG ENV, will be presented in detail.

The target audience are relevant authorities in Member States and representatives from DG ENV, invitations will be extended to interested parties in DG REGIO.

December

11th December – Road maintenance and safety workshop (venue: European Commission - Brussels)

The workshop will be divided into two thematic sessions:

- Road maintenance and operations approaches
- Road Safety requirements and audits

and it will conclude with networking time for the participants.

The roundtable is targeted to representatives from managing authorities, line ministries and beneficiaries that are in charge of road transport programmes implementation and, in particular, decision makers and road administrations managers dealing with road infrastructure management.

Invitations will be extended to interested parties in DG REGIO and DG MOVE.
