What is JASPERS

- 'Joint Assistance to Support Projects in European Regions'

- A partnership between EC, EIB, and EBRD to prepare large projects financed by EU grants under Structural and Cohesion Funds.

- Value added: Advisors bring experience and expertise of the EIB and the other institutions involved.

- 2007-2013 - Focus on 13 ‘new’ EU Member States + Greece and Croatia + pre-accession Countries

- Focus on Major Projects: > €50 M

Main goals:
- Absorption of EU Funds
- Project Quality and Sustainability
## Project cycle and JASPERS Outputs

| Pre-feasibility or concept stage | • Comments and guidance on strategies, master plans, etc.;  
                                 | • Assistance in developing project concepts vis-à-vis EU regulations and in the preparation of the Terms of Reference for beneficiaries to select consultants for the preparation of the feasibility study. |
|---------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Feasibility stage               | • Methodological support during the preparation of the feasibility study and other supporting studies;  
                                 | • Support to the beneficiary and/or line ministry in the review of intermediate and final deliverables.                                                                                          |
| Application stage               | • Review of the draft application form and the annexes before the submission by the national authorities to COM for approval                                                                                                                                   |
| Implementation                  | • Selective implementation support with the setting up of appropriate Project Implementation Units and the reviewing of tender documents                                                                                                                         |
| Horizontal outputs and capacity building activities | • JASPERS advise on horizontal issues that affect several projects/subsectors/countries. Assistance through Horizontal actions to address issues across a whole sector or series of projects (e.g. state aid, environmental issues, CBA.).  
                                 | • Capacity building: Multi-country (Networking Platform) and in-country workshops/presentations/trainings                                                                                       |
