

Future Capacity Building Activities – Climate Change

Brussels, 29th September 2015

Sarah Duff – JASPERS

**JASPERS Networking Platform Seminar – Climate Change Related Requirements for
Major Projects in the 2014 – 2020 Programming Period**

Networking Platform Activities

JASPERS Networking Platform:

- launched in late 2012 to complement project advisory with capacity building, knowledge sharing, exchange of good practices.
- Open to interested counterparts in EU28 (and pre-accession countries)
- Training Events, Seminars, Workshops, Annual Meetings, etc.
- Around 1000 people attending key events in Brussels (mainly Member States and EC)
- Dedicated web portal active since March 2013
- Thematic Publications and JASPERS Working Papers

JASPERS

- Advisory – Project preparation support
- Independent Quality Review (IQR)
- **Networking and Competence Centre**
 - central location for delivering specialist advice on issues which are not sector specific, such as **Climate Change**, State Aid, PPP approaches related to co-financed projects, Environmental issues (including EIA and SEA), and Cost Benefit Analysis.
 - enhanced capacity building under the Networking Platform

Planned Future Climate Change Activities

Multi-Country Events – Brussels

- Climate Change Adaptation Vulnerability and Risk Assessment (late 2015 / early 2016)
- Climate Change Mitigation and Carbon Footprinting (early 2016)
- Others...

Interactive sessions – workshops, roundtable discussions, etc.

National and/or Regional Actions – In Member States

- Targeted training and capacity building events
- Focused tasks and actions on specific topics (on demand)

e.g.

- Poland – Support to Ministry of Infrastructure & Development
- Slovakia – Climate Change Roundtable

Planned Future Climate Change Activities

We want to hear from you....

Open Dialogue with Member States

- What are the main issues you are facing, related to climate change and project development?
- What areas do you need support with?
- Where could JASPERS help?
- ...
