ENLIGHT SAVINGS IN OPERATIONAL PROGRAMME ENVIRONMENT 2014 – 2020

JASPERS Networking Platform Workshop on Energy Efficiency in Housing and Public buildings
Prague, October 2, 2019
Allocations under all priority axes

(in total EUR 2.79 billion)

- EUR 767 million
- EUR 569 million
- EUR 459 million
- EUR 352 million

EUR 549 million
Priority Axis 5: Energy savings

SO 5.1: To reduce the energy intensity of public buildings and increase the use of renewable energy sources (CF)

SO 5.2: To achieve a high energy standard for new public buildings (ERDF)

SO 5.3: To reduce the energy intensity and increase the use of renewable energy sources in buildings of central government institutions (ERDF)

Allocation (EUR)

- 79 mil.
- 20 mil.
- 450 mil.

EUROPEAN UNION
European Structural and Investing Funds
Operational Programme Environment
Priority Axis 5: Energy savings

Types of supported activities:

- Reduction of energy consumption through improvement of thermal properties of building envelopes including other measures to reduce the energy intensity of buildings;
- Installation of technology for recovery of waste heat;
- Implementation of low-emission and renewable sources of heat.

- Support for the construction of public buildings in the passive energy standard.
## Priority Axis 5: Energy savings

### Selection of operations

<table>
<thead>
<tr>
<th>Form and amount of support for SO 5.1 and SO 5.3</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total energy savings for the common objects [%]</td>
</tr>
<tr>
<td>EU co-financing for the common objects [%]</td>
</tr>
<tr>
<td>Total energy savings for the preserved and architecturally valuable buildings [%]</td>
</tr>
<tr>
<td>EU co-financing for the preserved and architecturally valuable buildings [%]</td>
</tr>
</tbody>
</table>

### Form and amount of support for SO 5.2

| EU co – financing for the construction of new public buildings in the passive energy standard [%] | 30 |

* It is possible to get a **5%** bonus for applicants who realize total or partial energy-efficient renovations eligible for support, energy management and other EPC cost saving measures or who award a contract under the **Design & Build methodology**.
The current state of play for Priority Axis 5 (19. 9. 2019)

**Allocation of Priority Axis 5**

EUR 549 mil.

**8 calls**

published for EUR 665 mil. (EU contribution)

**2491 grant applications submitted,**

requesting EU subsidies at EUR 379 mil.

**1796 projects with EUR 278 mil.**

of EU subsidies, issued Grant Decision

**EUR 66.6 mil. of support disbursed**

to beneficiaries
Priority Axis 5: Energy savings

Programme indicators: Commitments from projects with issued grand decision (19. 9. 2019)

- Decrease of annual primary energy consumption of public buildings: **328 GWh/year**
- Useful floor area of renovated buildings: **652 743.51 m²**
- Newly built floor area of public buildings in near zero or passive standard: **40 425.67 m²**
- Additional capacity of renewable energy production: **93.64 MW**
- Heat production from renewable energy sources in total: **31.6 TJ**
- Decrease in primary particles emissions: **262.7 t/year**
